DETAILED ACTION

Faxing of Responses to Office Actions

In order to reduce pendency and avoid potential delays, TC 3700 is encouraging FAXing of responses to Office Actions directly into the Group at (703)872-9302 (Official) and (703)872-9303 (for After Finals). This practice may be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into TC 3700 will be promptly forwarded to the examiner.

1. Claims 1 and 6 have been amended for further examination. Claims 3-5, 9 and 10 have been deleted.

Art Unit: 3722

Response to Amendment

2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

3. The indicated allowability of claim 3 is withdrawn in view of the newly discovered reference(s). Amended claim 1 which contains original claim 3 limitations, and dependent claims 2 and 6 are hereby rejected based on the newly cited reference(s) as follows.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Machnikowski (4,024,832).

Machnikowski discloses in Fig. 1-5, a bookmark comprising: a bookmark body (58, 62, 45, 40) having a body surface (64a) that is bendable (seen in Fig. 5) and can include parallel

Art Unit: 3722

folding lines (48, in Fig. 3) or a groove (42, in Fig. 2); wherein the body also has a protection surface (66a) on which a bookmark clip (68) is mounted; wherein the body also has a folding sheet (64) capable of being inserted into inner pages of a book; wherein the bookmark clip can have a width substantially equal to the body (Col. 5, lines 11-14) and is adhesively mounted on the bookmark body (Col. 4, lines 11-14, and Col. 5, lines 6-8); and wherein the bookmark clip is made of plastic, metal or other resilient material (Col. 5, lines 8-11).

Allowable Subject Matter

5. Claims 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments with respect to claims 1, 2, and 6-8 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3722

Prior Art References

The prior art references listed in the attached PTO-892, but not used in a rejection of the claims, are cited for (their/its) structure. Domingo, Matsumoto et al, and Sweet disclose similar bookmarks.
